NAME: **BÉGIN, Serge**

ADDRESS: Adstock (Quebec)
Cellphone: (418) 805-9092

EDUCATION: B.Sc. in Geological Engineering
Laval University - 1975
Member of Ordre des Ingénieurs du Québec n° 28433

Summary of experience

CONSULTANTS EN GESTION DE CONSTRUCTION INC.

2000-2023 Shareholder, Vice-President and Treasurer of the company, which provides the following professional services:

Studies, preparation and analysis of claims, preparation of expert reports, estimation of construction costs, bid preparation, project management, engineering and construction techniques.

2012-2023 Performed cost estimations and prepared compensation requests on various projects. Analyzed requests for compensation and prepared expert reports for various projects (roads, infrastructure, docks, etc.).

2011-2012 Assisted the Neilson-EBC project manager on the construction of the Pipeline Saint-Laurent (406 mm dia.) linking the Ultramar (Lévis) gas refinery to a connection point in Boucherville. Provided administrative assistance in the areas of cost control, scheduling, contract changes, etc.

2009-2010 Handled various bids for the La Romaine-2 project.

- 2007-2009** Served as project manager for the construction of dikes and dams on the SEBJ-Rupert Diversion Project, works and structures, upstream reach, northern sector, for SBC-EMF Joint Venture. Operations included mass excavation; drilling and blasting; loading, hauling, and placing materials; and concreting a structural work and an overflow structure.
- 2005-2007** Served as project manager for construction of cofferdams and excavation of spillway (phase 1) on the Hydro-Québec project in Péribonka on behalf of Inter-Cité Construction Ltée. Operations included mass excavation, drilling and blasting, and loading, hauling and placing materials.
- 2004** Eastmain-1 construction site, civil works for the power plant. Conducted analysis of technical changes and established corresponding amounts for Aecon.
- Prepared bids for hydroelectric and gas pipeline projects.
- 2002-2003** Served as project manager for construction of spillway at SM-2 for Lafarge Canada. Operations included drilling, blasting, and concreting of a spillway structure.

LES CONSTRUCTIONS DU SAINT-LAURENT LTÉE (CSL)

- 1979-2002** Prepared bids and completed various contracts as project engineer and project manager. Responsibilities included managing personnel, materials, and equipment, scheduling activities, administering budget, and coordinating and supervising suppliers and subcontractors for all on-site operations.
- 1999-2002** Prepared, drafted, and analyzed a claim as part of the PNGTS pipeline project (CSL v. Janin), for an arbitration tribunal, including hearings and testimony.
- 1998** Handled contract administration and cost control in a project to build a 90 km (610 mm dia.) main line pipeline between Boucherville and Waterloo - PNGTS Pipeline, section 2, for TQM Pipeline.
- 1997** Prepared bids at head office.
Prepared, drafted, and analyzed a compensation claim as part of Aluminerie Alouette site preparation.

- 1996** Construction of the Lac Ha! Ha! dike in Ferland-Boileau, following a major flood, for the Stone Consolidated Corporation.
- 1995-1996** Redevelopment of René-Lévesque Boulevard for the City of Quebec. Operations included demolition, restoration of water and sewer mains, blasting, concreting, and urban development.
- 1994** Prepared bids at head office.
Prepared, drafted, and analyzed compensation claims.
- 1992-1993** Construction of the Lac Robertson hydroelectric development, in Basse-Côte-Nord for Hydro-Québec. Operations included coordinating air and sea transportation, clearing, site preparation, installation and operation of construction camp, construction of roads and cofferdam, excavation of power station and spillway, concreting of power house, etc.
- 1992** Worked at head office to prepare bid for the Lac Robertson hydroelectric development.
- 1991** Construction of a 1,067 mm dia. main line gas pipeline on a 70 km stretch located between Cochrane and Iroquois Falls, Ont., for TransCanada Pipelines.
- 1990** Construction of four (4) short-range radar bases on the Labrador coast (Zone 5), for Defence Construction (1951) Ltd. Coordinated operations and provided support from Quebec headquarters.
- 1989-1990** Site preparation for implementation of Alouette aluminum smelter in Pointe-Noire (Sept-Îles). Operations included clearing, grubbing, grading, drilling, blasting, excavation, crushing, and placing materials.
- 1989** Prepared bids at head office.
- 1986-1988** Construction of a long-range radar site in Saglek, a remote location on the Labrador coast, for Defence Construction (1951) Ltd. Operations included coordinating air and sea transportation (material, equipment, and labor), camp installation and operation, foundation works on building structures and reservoirs, construction of buildings, and project commissioning.

1985	Prepared bids at head office.
1984	Construction of a 123 km (406 mm dia.) main line gas pipeline between La Tuque and Chambord for Gaz Inter-Cité Québec Inc.
1983	Construction of a 22 km (406 mm dia.) main line gas pipeline between Trois-Rivières and Shawinigan, and a 23 km (168 mm dia.) distribution gas pipeline between Trois-Rivières and Bécancour for Gaz Inter-Cité Québec Inc.
1982	Concreting of the LG-4 spillway and operation of the concrete plant supplying construction site for Société d'Énergie de la Baie James (SEBJ).
1980-1981	Construction of two (2) docks for ferries on each side of the Saguenay River (Route 138) in Tadoussac and Baie Sainte-Catherine for the Ministère des Transports du Québec.
1979	Construction of a road and extension of a railway line at Lac Jeannine (Gagnonville) for Québec Cartier Mining.

SEBJ (LALONDE, VALOIS, LAMARRE, VALOIS)

1978-1979	Technical assistant for the Dikes and Dams Department of Société d'Énergie de la Baie James at the Caniapiscou site: Handled site inspections of dikes and dams.
1977-1978	Technical assistant for the Contract Administration Department of Société d'Énergie de la Baie James at the Caniapiscou site: Administered contracts and carried out work planning, schedule monitoring, and cost control.
1976	Technical assistant for the Dikes and Dams Department of Société d'Énergie de la Baie James at the Montreal headquarters: Performed preliminary cost studies and planned and prepared call for tenders documents.

Specialized knowledge**Further training**

ISO 9002 Quality Assurance Programme
Arbitration Seminar – CACNIQ (now CCAC)
Lectures given by various law firms on construction law
Study sessions on contract claims

Associations

Explosives training
Member of the Ordre des Ingénieurs du Québec (OIQ)
Member of Société d'énergie explosive du Québec (SEEQ)

Spoken and written languages

French and English
